Dear Customers

Notes and Installation of Enhanced Support Facility 3.1

Thank you very much for purchasing the Enhanced Support Facility software.
The Enhanced Support Facility is software that improves operationability and manageability and maintenancability of Solaris OS. A combination of Solaris OS and the Enhanced Support Facility enables steady running of a system and quick recovery from system problems and strong system expansion which you can operate/maintain safely. Please be sure to install Enhanced Support Facility 3.1 and Manuals & Patches 3.1A10 after installing Solaris OS.
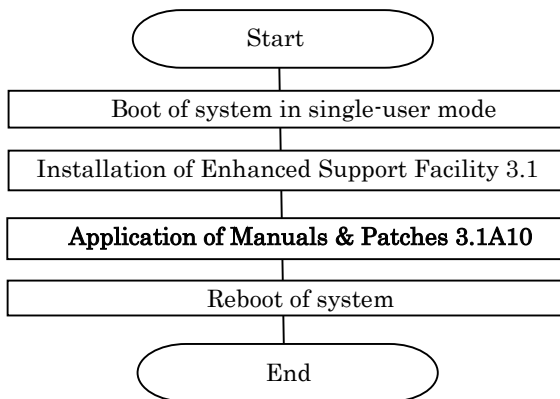

1. Product Configuration
     The following shows the configuration of this product.

Items	Numbers
Notes and Installation of Enhanced Support Facility 3.1 (This document)	C120-E389-08ENZ0(A)
Enhanced Support Facility 3.1 DVD-ROM	C120-E389-06C2
Manuals & Patches 3.1A10 CD-ROM	C120-E451-05C2

2. Installation of Enhanced Support Facility 3.1 and Manuals & Patches 3.1A10
2.1 Installation Procedure
     Please follow the steps below to apply patches and install Enhanced Support Facility 3.1.
     For more information, please refer to Enhanced Support Facility 3.1 Installation Guide.
     You should read the Installation Guide before installing the software because it has useful information such as some cautions for your installation.
